9. Programs offered: Intake and Enrolment

The college offers both Undergraduate (UG) and Postgraduate (PG) professional programs including MBA, MCA, BBA, and BCA. The approved actual intake for these programs is 180 seats. 5% seats under the Tuition Fee Waiver Scheme (TFWS) (9 seats) and 10% seats under the Economically Weaker Section (EWS) category (18 seats) are provided over and above the regular intake, bringing the total intake capacity to 207 seats.

For the IMCA and MBA (Pharma) programs, the approved intake is 60 seats, with 3 additional TFWS seats and 6 EWS seats, making the total intake 69 seats.

Through these programs, the institution ensures wider access to quality professional education while supporting students from economically weaker backgrounds through reserved and additional intake provisions.

10.Teaching–learning and evaluation process

The institution actively promotes the use of ICT-enabled tools to enhance the effectiveness of the teaching-learning process. The institute is equipped with computers connected through LAN, smart classrooms, LCD projectors, and laptops, providing a robust ICT infrastructure.

Online teaching and learning are facilitated through platforms such as Zoom and Google Meet, enabling interactive and engaging classroom experiences. Faculty members extensively use Learning Management Systems (LMS), particularly Google Classroom, for e-content delivery, dissemination of reference materials, and sharing of informative videos. Students are encouraged to submit e-assignments through these platforms, ensuring easy accessibility and future reference. Faculty members also provide students with a variety of online learning resources, including e-books, e-content, and YouTube presentations. Teachers have developed educational blogs, websites, and YouTube channels that students can access for additional learning support. Recorded sessions are made available as reference material, enabling students to revisit concepts whenever required.

Students are encouraged to actively participate by sharing their comments, feedback, and critical evaluations through blogs and YouTube channels. Communication with students is maintained through various online platforms such as WhatsApp, Telegram, and email. Additionally, the institution utilizes TESTMOZ software for conducting continuous assessments and online examinations, ensuring uninterrupted academic evaluation during challenging situations such as the pandemic.

Assessment of Students' Learning Levels and Special Programmes for Slow and Advanced Learners :

The Institute of Management and Research (IMR), Jalgaon follows a structured process to identify Strong and Weak students for providing appropriate academic support and development opportunities.

1. Identification Criteria :

Students' performance in the First Internal Examination is used as the primary basis for identification. Special emphasis is given to performance in OrganisationalBehaviour and Statistics & Quantitative Techniques, as these subjects assess communication skills, analytical ability, logical reasoning, and numerical aptitude. Considering that many students come from a vernacular-medium background, these subjects serve as effective indicators of their academic strengths and challenges.

2. Classification :

- Students securing more than 80% marks in either of the identified subjects are categorized as Strong Students.
- Students securing less than 50% marks in either subject are categorized as Weak Students.

The list of Strong and Weak students is prepared and communicated to faculty members for focused academic intervention.

3. Support Measures :

Weak students are provided with:

- Remedial coaching and academic guidance
- Additional attention during classroom activities
- Motivation to improve participation and performance
- Question banks and assignments for practice
- Parent meetings and counselling sessions

Strong students are encouraged to:

- Appear for professional certification examinations such as NISM
- Participate in workshops, competitions, and research activities
- Engage in university-level and intercollegiate events
- Encouragement to pursue certification courses
- Exposure to content beyond the prescribed syllabus

4. Monitoring and Mentoring :

The progress of identified students is reviewed through their Semester I performance. The institute's Mentor–Mentee System provides continuous academic and personal guidance. Faculty mentors monitor student progress, offer counseling, and encourage participation in co-curricular and extracurricular activities to support their overall development and success.

Preparation and Adherence to Academic Calendar and Teaching Plans :

Each department prepares its academic plan in consultation with the concerned faculty members. The Dean consolidates these plans and finalizes the Academic Calendar by incorporating inputs from various support wings, including Sports, NCC, NSS, and the Library.

The schedules of statutory bodies, examination activities, and semester commencement and completion dates are duly considered during the preparation of the Academic Calendar. The draft calendar is further refined by incorporating departmental activity plans and suggestions from the respective NAAC Criterion Chairpersons.

The finalized draft is discussed and approved in meetings of the IQAC, Academic Council, and College Development Committee. Regular reviews are conducted during scheduled IQAC meetings to monitor the implementation of the Academic Calendar and ensure effective adherence throughout the academic year.

IT Integration and Reforms in Examination Procedures and Processes :

The institution has significantly strengthened its Examination Management System (EMS) through the integration of Information Technology, ensuring transparency, efficiency, and accuracy in examination-related activities.

Comprehensive planning and scheduling of internal and external examinations are carried out through meetings of the Board of Examination (BOE). Examination timetables are prepared well in advance and communicated to students through the college website and notice boards. Question papers are prepared and handled with utmost confidentiality under the supervision of the concerned authorities.

The institute has implemented an Examination ERP System that facilitates online examination form submission, fee payment, generation of hall tickets, preparation of mark lists,

online entry of marks, and declaration of results. The system also enables seamless export of examination data for mark sheet preparation and record management.

To ensure uninterrupted assessment and evaluation, the institution has utilized digital platforms such as Testmoz and Google Forms for conducting online examinations. Continuous Internal Assessment (CIA) is implemented throughout the academic year to monitor and evaluate students' academic progress. Assessment methods include objective and subjective tests, assignments, seminars, group discussions, practical work, presentations, and attendance. The cumulative performance across these assessment components contributes to internal evaluation, thereby promoting continuous learning and academic development.

Programme Outcomes (POs) and Course Outcomes (COs) :

The institution has adopted an outcome-based and student-centric curriculum framework. Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs) are clearly defined, incorporated into the curriculum, and communicated effectively to both teachers and students.

Each Board of Studies ensures the inclusion of course-specific and programme-specific outcomes in the respective syllabi. In alignment with the objectives of the National Education Policy (NEP 2020), the institution continuously works towards strengthening the mapping and correlation of COs, POs, and PSOs to meet regional, national, and global educational needs.

These outcomes are displayed on the college website and made readily accessible to students and faculty members. Subject teachers introduce and explain the Course Outcomes at the beginning of each course, enabling students to understand the expected learning achievements and academic goals. Several departments have also incorporated specific course objectives to further enhance clarity and support effective teaching-learning practices.

Evaluation System and Result Processing :

The institution follows the evaluation framework prescribed by Kavayitri Bahinabai Chaudhari North Maharashtra University, ensuring fairness, transparency, and academic integrity in the assessment process.

The semester-based evaluation system comprises two major components:

- Continuous Internal Assessment (CIA)
- End Semester Examination (ESE)

Continuous Internal Assessment includes assignments, presentations, seminars, class tests, practical assessments, and other academic activities that help monitor students' ongoing performance and learning progress throughout the semester.

The End Semester Examination is conducted according to university and institutional regulations. Evaluation of answer scripts is carried out through a centralized and confidential process to maintain objectivity and reliability. Final results are declared after the completion of the assessment process, ensuring accuracy and transparency in result processing.

The institution's systematic and technology-enabled evaluation mechanism contributes significantly to maintaining academic standards while fostering continuous improvement in student learning outcomes.

For the academic year 2024–25, the examination process was conducted smoothly and efficiently in accordance with the guidelines and regulations of KBC NMU. The institution

ensured timely completion of all examination-related activities, including internal assessments, semester examinations, evaluation, and result processing.

The results of various undergraduate and postgraduate programmes were declared within the stipulated time frame, maintaining transparency, accuracy, and confidentiality throughout the process. The overall academic performance of students remained satisfactory, reflecting the effectiveness of the teaching-learning practices, continuous internal assessment, and evaluation system implemented by the University and the institution.

16. Training and Placement Activities

During the academic year 2024–25, the Training and Placement Department undertook several initiatives to enhance students' employability, industry exposure, and career readiness. The institute signed 3 functional Memoranda of Understanding (MoUs) with reputed organizations to facilitate industry interaction, skill development, and experiential learning opportunities for students.

As part of these collaborations, specialized training programmes, workshops, certification courses, and expert sessions were organized for students of MBA, MCA, BBA, BCA, and other programmes. Notably, under the MoU with IBM, on-campus training programmes were conducted for MBA and MCA students, providing practical exposure to current industry practices. The institute also collaborated with WNS for online employability skill development training, benefiting a large number of undergraduate and postgraduate students.

The department conducted 23 training programmes and organized 7 industrial visits to reputed organizations, enabling students to gain first-hand exposure to professional work environments and industry operations. These initiatives significantly contributed to bridging the gap between academic learning and industry expectations.

The institution also organized an Online HR Conclave featuring HR professionals and industry experts from leading organizations who shared valuable insights on employability, career planning, and emerging industry trends. Such interactions helped students understand corporate expectations and prepare themselves for professional careers.

The institute maintained an overall placement ratio of 64%, with students securing placements in reputed organizations across various sectors. The highest package offered during the year was Rs.12,0000 PA.

17. Alumni Association Activities

Alumni Association Registration No. F - 15809

Annual General Meeting (AGM) – AY 2024–25

The 11th Annual General Meeting (AGM) of the Alumni Association was successfully conducted on 4 January 2025. The meeting witnessed the participation of 22 members, reflecting the continued engagement and support of alumni towards the Association's activities and governance.

The AGM served as an important platform for reviewing the Association's progress, presenting annual reports and financial statements, discussing key achievements and future initiatives, and addressing matters of importance to the alumni community. Members actively participated in deliberations and contributed valuable suggestions for strengthening alumni involvement and enhancing the Association's outreach.

The successful conduct of the AGM reaffirmed the Association's commitment to transparency, accountability, and democratic functioning. The meeting also laid the foundation for future activities and initiatives aimed at fostering stronger connections among alumni and supporting the growth and development of the institution.

Alumni Association Board Meetings (AY 2024–25)

To ensure effective governance and smooth functioning of the Alumni Association, a series of Board Meetings were conducted during the academic year 2024–25. These meetings provided a platform for reviewing organizational activities, planning key events, and making important administrative decisions.

The first Board Meeting was held on 8 December 2024, wherein the minutes of the previous meeting were read and confirmed. Discussions focused on the appointment of the auditor, planning for the Annual General Meeting (AGM), preparations for the General Election, and other matters concerning the Association's operations.

The second Board Meeting took place on 1 January 2025. Members reviewed and assessed the preparations for the forthcoming AGM and General Election. The meeting also included the confirmation of the previous meeting's minutes and deliberations on other relevant issues.

Following the successful completion of the General Election, the third Board Meeting was convened on 18 January 2025. The newly elected Board Members were formally welcomed, and office bearers were elected to various positions. The meeting also reviewed the minutes of the previous meeting and discussed additional matters related to the future functioning of the Association.

These Board Meetings played a vital role in ensuring transparency, democratic governance, and strategic planning within the Alumni Association. Active participation of Board Members contributed significantly to the successful conduct of the AGM, General Election, and the formation of the new leadership team.
