Approved by AICTE, New Delhi and Government of Maharashtra,  
Affiliated to North Maharashtra University, Jalgaon | NAAC Accredited | ISO 9001:2015 Certified

Certificate Course in

**C++**

**PROGRAMMING**

**04<sup>th</sup> Sep. 2018 to 03<sup>rd</sup> Oct. 2018**

**Program Duration : 30 Days**

**Mrs. Tanuja Fegade, HOD**

Course Coordinator

**Deepali Kirange**

**KCES's Institute of Management and Research, Jalgaon**  
**Certificate Course on C++ Programming**  
**SYLLABUS**

**UNIT - 1. Introduction:** An overview, Object basics, Object state and properties, Behavior, Methods, Messages, Information hiding, Class hierarchy, Relationships, Associations, Aggregations, Identity, Dynamic binding, Persistence, Meta classes, Object oriented system development life cycle.

**UNIT - 2. Object Oriented Analysis:** Identifying Use case, Business object analysis, use case driven object oriented analysis, use case model, Documentation, Classification, Identifying object, relationships, attributes, methods, Super-sub class, A part of relationships Identifying attributes and methods, Object responsibility.

**UNIT - 3. C++ Basics:** Standard Input/ Output Statements, Data Types, Size contents, Variables, variable name, Declaration, Operators and expressions: arithmetic, relational, logical, Bit wise, increment, decrement, assignment, compound assignment, conditional, special, Operator precedence and order of evaluation. Decision Making and Looping Structures, Functions Arrays and String, Pointer

**UNIT - 3. OOP Concepts:** Object Oriented Paradigm in C++ context, Characteristics of Object-Oriented Programming. Difference of Structured Vs. OOPs Object and Classes: Making sense of core object concepts, Operator Overloading, Inheritance, Virtual Functions

**UNIT - 4. Templates:** Function Templates, Class Templates, Templates with types of parameters

**UNIT - 5.Exceptions:** Exceptions: Difference between exception and error, Basics of exception handling in C++, User define exceptions. Streams and Files Streams Classes, Stream Errors. Disk File I/O with Streams, File Pointers, Error Handling in File I/O File I/O with Member Function, Overloading the Extraction and Insertion Operators Memory as a Stream Object, Command line Arguments

**Certificate Course in C++ Programming**  
**w.e.f. 4 Sep 2018 - 3 Oct 2018**  
**REPORT**

**Duration and Class Schedule**

- The course is offered for 30 days.
- Duration: 30 days of one hour each from 3pm - 4 pm, that is 6 hours per week.
- Total number of hours is 30 hours.

**Eligibility**

- The participants from MCA-I course are eligible for admission in this course.
- Total 30 students are participated in this course.

**Teaching Faculty:**

- Internal faculty Ms.Deepali Kirange, Assistant Professor, KCES's IMR, Jalgaon.

**Co-ordinated by:**

- This course is co-ordinated by Ms.Deepali Kirange and HOD Mrs. Tanuja Fegade.

**Evaluation Procedure**

- The course shall have two components of evaluation:
  - a) Continuous evaluation of 20 marks, comprising of Theory and Practical etc.
  - b) Final Examination of 80 marks, comprising of –
    - i. Written Examination: 50 marks.
    - ii. Practical / Oral Examination: 30 marks.
- Final Score for 100 Marks shall be calculated for the continuous evaluation and final examination; and grade shall be as per the grading system below.

**Grading System**

- Based on the student's performance a final letter grade will be awarded at the end of the certificate course. The letter grades and the corresponding grade points are as given in Table

**Table: Grades and Grade Points**

S.No.	Grade	Grade Points	Absolute Marks
1	O (Outstanding)	10	90 and above
2	A+ (Excellent)	9	80 to 89
3	A (Very good)	8	70 to 79
4	B+ (Good)	7	60 to 69

5	B (Above average)	6	50 to 59
6	C (Average)	5	45 to 49
7	P (Pass)	4	40 to 44
8	F (Fail)	0	Less than 40
9	A (Absent)	0	

## COURSE JUSTIFICATION

This certificate course has been designed with the aim of promoting object oriented programming knowledge among the students. The student can understand the knowledge about the theory and practical's of C++. The purpose of the Certificate course in Cpp Programming to impart knowledge of programming to enable them to build a project.

### Course Objectives:

The objectives of the course are:

- 1) To familiarize the Object-Oriented Programming (OOP) concepts, such as abstraction, encapsulation, instances, initializations, polymorphism, overloading, inheritance etc.
- 2) To write programs to solve problems using generic programming constructs such as templates and using standard template library.
- 3) To understand and know the importance of pointers and learn file handling and exception handling in real-world problems

### Course Outcomes:

By the end of the course, students shall be able to:

1. Understand and use the basic programming constructs of C++ and manipulate various C++ datatypes, such as arrays, strings, and pointers.
2. Manage memory appropriately using proper allocation/ deallocation procedures.
3. Write small-scale C++ programs using the above skills.

# php

**16<sup>th</sup> Aug. 2018 to 14<sup>th</sup> Sep. 2018**

**DURATION : 30 DAYS**

**Program Coordinator  
Pramod Ghogare**

**HOD  
Mrs. Tanuja Fegade**

Behind D.I.C., N.H.06, Jalgaon (MS) Tel : 0257 - 2251281

**KCES's Institute of Management and Research, Jalgaon**  
**Certificate Course on PHP Programming**  
**SYLLABUS**

**UNIT-I**

**Introduction:** Why PHP? Starting PHP Script, Printing Single Line, Variables and Constants, Comments, Installation.

**UNIT- II**

**Language Basics**

Structure and syntax, If statement, Switch statement, For Loop, While Loop, Do – While Loop, Operators, Using PHP \$\_GET, \$\_POST, Working with forms: Processing forms, Form Validations, Linking form together Introduction to cookies and sessions

**UNIT- III**

**Arrays :** Declaring PHP Array, One Dimensional array, Two dimensional array, and Associated Array. Describing arrays, Sorting arrays, for each constructs, Taking Advantages of arrays in Application, PHP string Manipulation.

**UNIT- IV**

**PHP Function :** Understand what is function, Need of Function in PHP, Advantage of Function over statements PHP Function declaration with Example, PHP Function Calling, and PHP Function with arguments Default Arguments in Function, Types of arguments in Function, Function argument with call by value, Function argument with call by reference.

**UNIT- V**

**Using PHP With MYSQL DB:** Introduction to MySql db, Using SQL Commands, interacting with databases, modifying database records using php, Take Advantage of PHP built in functions which are related with db in general and MySql specifically.

**UNIT- VI**

**Advanced in PHP :** Emailing in PHP, Building CMS, Mailing.

3	A (Very good)	8	70 to 79

4	B+ (Good)	7	60 to 69
5	B (Above average)	6	50 to 59
6	C (Average)	5	45 to 49
7	P (Pass)	4	40 to 44
8	F (Fail)	0	Less than 40
9	A (Absent)	0	

### COURSE JUSTIFICATION

This certificate course has been designed with the aim to provide the necessary knowledge to design and develop dynamic, database-driven web applications using PHP. The student can understand the knowledge about the theory and practical's of PHP. The purpose of the Certificate course in PHP Programming to impart knowledge of programming to enable them to build a project.

#### Course Objectives:

The objectives of the course are:

1. Understand how server-side programming works on the web and PHP Basic syntax for variable types and calculations.
2. Creating conditional structures and Storing data in arrays
3. Using PHP built-in functions and creating custom functions and Understanding POST and GET in form submission.
4. Create a database in phpMyAdmin and Read and process data in a MySQL database.

#### Course Outcomes:

By the end of the course, students shall be able to:

1. List the major elements of the PHP & MySQL work and explain why PHP is good for web development
2. Learn how to take a static website and turn it into a dynamic website run from a database using PHP and MySQL.
3. Analyze the basic structure of a PHP web application and be able to install and maintain the web server, compile, and run a simple web application.
4. Learn how databases work and how to design one, as well as how to use php MyAdmin to work with MySQL.

# **CERTIFICATION COURSE FOR DIGITAL MARKETING**

## **SYLLABUS**

**w.e.f. 17 Sep 2018- 22 Oct 2018**

### **Unit 1 Introduction to Digital Marketing**

- 1.1. The Online Opportunity
- 1.2. First Step in Online Success
- 1.3. Build Web Presence
- 1.4. Plan Online Business Strategy
- 1.5. Get Started With Search

### **Unit 2 Use Search Engine**

- 2.1. Get Discovered With Search
- 2.2. Make Search for Your Work
- 2.3. Noticed with Search ads
- 2.4. Improve Your Search Campaigns

### **Unit 3 Make Your Business Visible**

- 3.1 Help People nearby Find You Online
- 3.2. Get Noticed with Social Media
- 3.3. Deep Dive into Social Media
- 3.4. Discover the Possibilities of Mobile
- 3.5. Make Mobile Work for You

### **Unit 4 Content Marketing**

- 4.1. Starting of Content Marketing
- 4.2. Connect Through Emails
- 4.3. Advertise on Other Website

### **Unit 5 Start Online Business**

- 5.1. Make the Most of Video
- 5.2. Get Start with Analysis
- 5.3. Build Your Online Shop
- 5.4. Expand Internationally

### **Reference Books:**

1. Digital marketing essentials you always wanted to know - Vibrant publication
2. Fundamentals of digital marketing - Pearson
3. Application of digital marketing in business - BPB publications

**CERTIFICATION COURSE FOR DIGITAL MARKETING**

**17 Sep 2018- 22 Oct 2018**

**REPORT**

**Duration and Class Schedule**

- The course is offered for 35 days.
- Duration: 35 days of one hour each from 4pm - 5 pm, i.e. 7 hours per week.
- The classes will be conducted in Room no:10, IMR Campus
- Total number of hours is 35 hours.

**Eligibility**

- This course is specially conducted for MBA I students.

**Teaching Faculty:**

- Internal faculty Mr. Anil Kumar Marthi, Assistant Professor, KCES's IMR, Jalgaon.

**Evaluation Procedure**

- The course shall have two components of evaluation:
  - a) Continuous evaluation of 20 marks, comprising of quizzes, assignments, etc.
  - b) Final Examination of 80 marks, comprising of –
    - i. Written Examination Total: 60 marks.
    - ii. Oral Examination of 20 marks.
- Final Score for 100 Marks shall be calculated for the continuous evaluation and final examination; and grade shall be as per the grading system below.

**Grading System**

- Based on the student's performance a final letter grade will be awarded at the end of the certificate course. The letter grades and the corresponding grade points are as given in Table

## **COURSE OUTCOMES:**

Upon completion of this course, the students will be able to:

- Understand what is digital marketing
- Use search engine properly
- Make his/her business visible
- Get more customers through content marketing

## **COURSE OBJECTIVE:**

The program aims at developing an overall understanding of digital marketing / online marketing platforms, mainly web analytics, social media tools, marketing through search engines, search engine optimization, mobile marketing, email marketing, Pay per click, digital display marketing and content marketing.

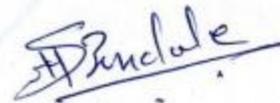

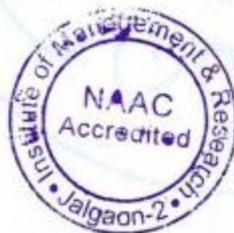

The main objectives of this certificate course in digital marketing is:

- To create Brand Awareness
- To Lead Generation
- Promotion for new products & services
- To Target Customers
- Retaining Old customers
- Increase Sales/Profit
- Expand Market
- To Improve User Experience
- To Improve conversions

# **CERTIFICATE COURSE FOR TALLY ERP 9**

## **SYLLABUS**

**w.e.f. 6 Sep 2018 - 5 Oct 2018**

### **Unit 1.**

#### **1.1 Basics of accounting**

- a) Type of Accounts
- b) Golden Rules of Accounting
- c) Accounting Principles
- d) Concepts and Conventions
- e) Double Entry System of Book Keeping mode of accounting
- f) Financial Statements
- g) Recording Transaction

#### **1.2 Fundamental of Tally ERP 9**

- a) Getting fundamental with Tally.ERP9
- b) Creation & Setting up of Company in Tally.ERP9
- c) Accounting Masters in Tally.ERP9

#### **1.3 Voucher Entry in Tally ERP 9**

- a) Accounting Vouchers
- b) Inventory Vouchers
- c) Invoicing

### **Unit 2.**

#### **2.1 Inventory in Tally.ERP9**

- a) Stock Group
- b) Stock Categories
- c) Godowns / Locations
- d) Units of Measure
- e) Stock Items

#### **2.2 Advance Accounting in Tally.ERP9**

- a) Bill-wise details
- b) Cost Centers and Cost Categories
- c) Multicurrency
- d) Bank Reconciliation Interest Calculations
- e) Budgets & Controls
- f) Scenario Management

### **2.3 Technological Advantages of Tally.ERP9**

- a) Tally Vault
- b) Security Control
- c) Backup and Restore
- d) Split Company data
- e) Export & Import
- f) ODBC Connectivity
- g) Printing Report

## **Advanced Excel**

### **3. Introduction to Excel and Financial Functions.**

- a) Introduction to Excel
- b) Data Entry
- c) Text, Number
- d) Formulae
- e) Functions (AVERAGE, SUM, PRODUCT, COUNT, MIN, MAX)
- f) Importance of Financial functions.
- g) Syntax and benefits of following financial functions in excel;
- h) FV, PV, PPMT, DB, SLN. IRR, NPV

#### **3.1 Pivot Table, Charts and Bars, V Lookups Functions.**

- a) Importance of Pivot Table
- b) Importance of Bars/pie charts
- c) Importance of V Lookups and H Lookup Functions in Excel

**KCES's Institute of Management & Research**  
**CERTIFICATE COURSE IN TALLY AND MS-EXCEL**

6 Sep 2018-6 Oct 2018

**REPORT**

**Duration and Class Schedule**

- The course is offered for 30 days.
- Duration: 30 days of one hour each from 4pm - 5 pm.
- The classes will be conducted in Room no: 10.
- Total number of hours is 30 hours.

**Eligibility**

- The participants eligible in this course are students from BMS II and Integrated MBA III.

**Teaching Faculty:**

- Internal faculty Mr. Amol Pande, Assistant Professor, KCES's IMR, Jalgaon.

**Evaluation Procedure**

- The course shall have two components of evaluation:
  - a) Continuous evaluation of 20 marks, comprising of quizzes, assignments, etc.
  - b) Final Examination of 80 marks, comprising of –
    - i. Written Examination Total: 60 marks.
    - ii. Oral Examination of 20 marks.
- Final Score for 100 Marks shall be calculated for the continuous evaluation and final examination; and grade shall be as per the grading system below.

**Grading System**

- Based on the student's performance a final letter grade will be awarded at the end of the certificate course. The letter grades and the corresponding grade points are as given in Table

**Table: Grades and Grade Points**

S.No.	Grade	Grade Points	Absolute Marks
1	O (Outstanding)	10	90 and above
2	A+ (Excellent)	9	80 to 89
3	A (Very good)	8	70 to 79
4	B+ (Good)	7	60 to 69
5	B (Above average)	6	50 to 59
6	C (Average)	5	45 to 49
7	P (Pass)	4	40 to 44
8	F (Fail)	0	Less than 40
9	A (Absent)	0	

## COURSE OUTCOMES:

Students will be able to operate tally software and perform financial entries in TALLY ERP 9.

- Various Concepts pertaining to formation of company and creation of different accounts under TALLY ERP 9 are discussed.
- Students are able to understand the concept of VAT and how to calculate tax in TALLY ERP 9.
- Advanced Excel Formulae are being discussed and practically done by students.

## COURSE OBJECTIVE:

From keeping a track of expenses and deciding about investments to calculating profits, accounting plays a fundamental role in every business. However, quite often, the records either get misplaced or have errors when recorded manually. This can lead to data discrepancy and will not give a clear picture of the financial health of the business. Using software like Tally is an ideal solution for tracking the business efficiently. Used by scores of small and medium enterprises, Tally has become a popular software for record-keeping and accounting purposes. In this certificate course, we will elaborate on the intricacies of the Tally course as well as the job opportunities you can explore. The course is based on current industry standards that help students secure placements in their dream jobs. The course content is going to teach students in detail on how to manage account, Inventory and payroll in Tally.

If you are going to learn Tally you must get well acquainted with MS Excel. Its use is to do advanced calculation, graphing tools, pivot tables, and a macro programming language referred to as Visual Basic for Applications. The course curriculum is one of the most comprehensive and most advanced.

To enable students to learn Accounting entries in Tally ERP 9 Software.

- To make students able to link theory of Accounts and Finance with practical business operations.
- To understand the importance of Advanced Excel in business operation in order to solve complex business calculations.
- To study how this software is enabling business units to carry their work smoothly and efficiently.

**Note - For the purpose of examination provisions of Central Goods & Services Tax Act, 2017 amended up to six months prior to the date of examination, shall be applicable.**

**Objective:**

To develop an understanding of the basic provisions of Goods & Services Tax Law.

**Unit – 1Basics of GST: -**

**10 Hours**

1.1History of Goods and Services Tax in World and in India

1.2 Overview of Constitutional Provisions: - Following articles of Indian Constitution:-

Article 246,246A, 265, 366 (12), 366(12A), 366(26A).

1.3 Merits and Demerits of GST

1.4 Types of GST

**Unit - 2Important Definitions under CGST Act: -**

**15Hours**

Aggregate Turnover, Business, Capital Goods, Goods, Service, Input Tax Credit, Inter-State and Intra-State Supply Of Goods And Services, Invoice and Tax Invoice, Taxable Supply and Non Taxable Supply, Continuous Supply, Mixed Supply, Composite Supply, Exempt Supply and Zero Rated Supplies, Nil Rated Supplies, Consideration and Non-Monetary Consideration, Reverse Charge.

**Unit - 3 Levy and Collection of GST**

**10Hours**

3.1 Meaning and Scope of supply (Section 7).

3.2 Composition levy (Section 10).

3.3 Exemption from Tax

**Unit - 4 Time and Value of Supply**

**10 Hours**

4.1 Time of Supply of Goods and Services

4.2 Value of Supply of Goods and Services

**Unit - 5 Input Tax Credit**

**15Hours**

5.1 Eligibility and Conditions for claiming I.T.C. (Section 16).

5.2 Apportionment of Credit

5.3 Non - Availability of Input Tax Credit

5.4 Reverse Charge Mechanism

**FACULTY OF COMMERCE AND MANAGEMENT**  
**CERTIFICATE COURSE IN GOODS & SERVICE TAX**  
**PAPER III-PRACTICALS BASED ON GOODS & SERVICES TAX**  
**(With effect from AY 2018-19)**  
**[TOTAL MARKS: 60 EXTERNAL + 40 INTERNAL =100 MARKS]**  
**TOTAL HOURS: 80**

**Note - For the purpose of examination provisions of Central Goods & Services Tax Act, 2017 amended up to six months prior to the date of examination, shall be applicable.**

**Objective:**

To develop practical ability to apply theoretical knowledge in addressing application oriented issues.

*(Note:*

- 1. These Internal assignments will be taught in dedicated Computer LABs of the Colleges or Institutes offering this certificate course and having Tally ERP software with GST and Internet facility.*
- 2. Resource Trainer can be Faculty Members of the College or any Professional having membership of ICAL ICS; or ICMAI or tax Professional or Tax Practicing Lawyer)*

**Part 1:Accounting For GST in Tally ERP( Internal Assignments) (24hours)**

**Assignment1: Nal-Introduction to basic concepts of Accounting w.r.t.GST (6Hours)**

- 1.1 Important Accounting Terms:Debtors, Creditors, Bill Receivable, Bills Payable, Credit Note Debit Note ,Petty Cash , Contra Entry ,Trade Discount ,Cash Discount,Suspense A/c, Cash A/c, Bank A/c
- 1.2. Journal -Meaning & Pro forma, Journal Entries for the following GST Based Transactions
- 1.3 Inter and Intra- State Sales, Purchases, Expenditure
- 1.4 Purchases and Sales of Fixed Asset
- 1.5 Set-Off and Payment of GST
- 1.6 Ledgers required for Accounting of GST based Transactions: Concept, Pro-forma, and Posting & Balancing of Ledger
- 1.7 Purchase and Sales Register (Simple and Columnar)

**Assignment No.2Accounting in Tally ERP software with GST (6Hours)**

- 2.1 Introduction to Tally
- 2.2 Versions & Features of Tally
- 2.3 Introduction to Gateway of Tally
- 2.4 Creation of Ledger Masters and Inventory Masters with Special Emphasis on GST
- 2.5 Vouchers in Tally -Purchase, Sales,, Receipt, Payment vouchers, Debit and Credit Note.
- 2.6 Sales Invoice, Debit and Credit Note Printing through Tally
- 2.7 Sales and Purchase Register (Columnar)
- 2.8 Export feature under Tally
- 2.9 GST Related Reports from Tally
- 2.10 Trial Balance and Financial Statements in Tally- P & L A/c, Balance Sheet

**Assignment3: Creation, Deletion and Alteration of company in Tally (2Hours)**

**A. Creation of Company**

Create a company Sunrise Electronics, Jalgaon with Accounts with Inventory and all other imaginary information required to open it.

**B. Alteration of Company**

Alter the details of Sunrise Electronics if its Name is changed to New Sunrise Electronics

**C. Deletion of Company**

Create a company Temporary Sales Corporation, Jalgaon with imaginary information required to open it and then Delete Temporary Sales Corporation from Tally.

**Assignment:4 Creation of Ledger & Group in Tally (2Hours)**

Creation of Ledger Accounts by assigning the proper groups and opening Balances of those accounts as on 31st March,20XX in the books Sunrise Electronics, Jalgaon as per the following the information.

Sr.No.	Ledger Name(To Be Created)
1.	Rate - Wise Input CGST, SGST, IGST
2.	Rate - Wise Output CGST, SGST, IGST A/c
3.	SBI Bank A/c
4.	Machinery A/c
5.	Sales Account
6.	Purchases Account

**Assignment:5 Creation of Stock items & stock groups in Tally: (1Hours)**

From the following list of products with in each mobile brand that Sun Mobiles deals in and the corresponding unit of measures:

Stock Item Name	Brand	Units of Measures
Samsung 64GB Mobile Phone	Samsung Mobile Phone	Nos.
Samsung 32 GB Mobile Phone	Samsung Mobile Phone	Nos.
Sony 64GB Mobile Phone	Sony Mobile Phone	Nos.
Sony 32 GB Mobile Phone	Sony Mobile Phone	Nos.
Apple iPhone	iPhone	Nos.

**Assignment6: Journal Entries in Tally**

**(3Hours)**

Journalize the following transactions in the books of **Alfa Electronics, Jalgaon** along with their appropriate narrations:-

- a. Started Business with Cash Rs.3, 00,000 and Building Rs.25,00,000 on 1st April, 20XX
- b. Purchase of 20 Samsung Mobiles (Inward supply) of Rs.18, 000 per unit @12%GST from Mr. Ajay at Mumbai on 21 d April, 20XX.
- c. Purchased Furniture from Delhi of Rs.2,00,000 through SBI Bank Cheque No 123456 on 30th April, 20XX @12 % GST.

- d. Sold 10 Samsung Mobiles (Outward supply) to Mr. Vijay at Pune for Rs.20,000 @12% GST on 30th April, 20XX.
- e. Received a cheque of Rs. 2, 00,000 from Mr. Vijay (Cheque No.700001) which is deposited in SBI Bank A/c (No.SBIIND123456789) on 1st May, 20XX.
- f. Sold 10 Samsung Mobiles (Outward supply) to Mr. Sanjay at Indore for Rs.22,000 @12% GST on 1st June, 20XX.

## **Part 2: External Training with Skill Knowledge Provider (SKP)-56 Hours**

**(External Project Viva based on assignment given below and compilation on Project Report)**

**Objective:** To gain understanding of the working on GST Portal and select e-compliances by pursuing at least 56 hours of hands-on training under the guidance of SKP. See Guideline to know about SKP.

### **Assignment1:**

List of Documents Required for Registration under the GST Laws and Procedure for Registration on the GST Portal.

### **Assignment 2:**

Understanding components of Invoice, Debit Notes, Credit Notes and procedure for obtaining E-Way Bills.

### **Assignment 3:**

Preparation of Returns, Using the GST Offline Tool provided by GSTN, Electronic Ledgers and Components of GST Common Portal.

### **Important Guidelines for completion of Project:**

1. The student has to perform following Assignments under the guidance of SKP and He has to prepare a Project Report and submit it the college.
2. The above assignments should be completed in form of a project (using screenshots, flowcharts, tree diagrams and photocopies, wherever required) to be evaluated by external examiner appointed by University.

### **3. The Project Report should cover following points :**

- a. **Executive Summary**
- b. **Profile of Skill Knowledge Provider**
- c. **Assignment No.1**
  - 1.1 **Case Study covering detail Procedure for Registration under GST**
  - 1.2 **Print Outs of Forms for Registration under GST**
- d. **Assignment No.2**
  - 3.1 **Case Study covering Invoice, Debit Notes, Credit Notes and procedure for obtaining E-Way Bills**
  - 3.2 **Print Outs Invoice, Debit Notes, Credit Notes and E-Way Bills**
- e. **Assignment No.3**
  - 3.1 **Case Study covering filing of Return on GSTN**
  - 3.2 **Print Outs of Return Form**
- f. **References**
- g. **Annexure**

**KCES's Institute of Management and Research, Jalgaon**  
**Certificate Course in GST**  
**w.e.f. AY 2018-19**  
**REPORT**

**Duration of Course**

- The course is offered for One Year Part time.
- Total number of lectures amounting to 200 hours. (60hrs-60hrs-80hrs.) for paper I,II,III respectively.

**Guidelines for Certificate Course in Goods & Services Tax**

**1. Guidelines for Certificate Course in Goods & Services Tax:**

- 1.1 Eligibility Criteria for College running Certificate Course in GST
- 1.2 Eligibility Criteria for Student enrolled for Certificate Course in GST
- 1.3 Guidelines for Skill Knowledge Provider (SKP)

**1.1 Eligibility Criteria for Institute running Certificate Course in GST :**

- Any UGC or AICTE approved Institute or College affiliated to North Maharashtra University can apply to conduct Certificate Course in GST.

**1.2 Eligibility Criteria for Student:**

**A) Who is eligible to enroll as a student?**

- Any student who has passed HSC or 10+2 Examination is eligible to enroll for certificate Course in Goods & Services Tax.

**B) How does the scheme operate?**

- Student has to register with any Institute or college affiliated to North Maharashtra University running Certificate Course in Goods & Services Tax.
- The student has to complete the module by acquiring the necessary credits from the Skill Knowledge Provider (SKP) and the institute he/she is enrolled with.
- The student has to submit a Project Report based on skills and knowledge acquired by him about GST from SKP as per the format prescribed in Paper III of this Certificate Course.
- The SKP shall evaluate student and award Experience Certificates /Completion
- Certificate to the student after successful completion of 56 Hours (1 Month) of training with SKP.

**1.3 Guidelines to join as Skill Knowledge Providers (SKP) to provide competency based skills to the students enrolled :**

**A) Who can be SKP for the purpose of Certification Course in GST?**

- Any Tax Professional or a Firm of Tax Professionals offering services in the area of Taxation or
- Any Private or Public Company having turnover of supplies of x.25 Lakhs or more having GST registration Number.

- Any other proprietary concern such as Firm, Nationalized Bank, Schedule Cooperative Bank, Private Bank having GST related compliance work and having turnover of supplies of 2 Crores or more.

**B) Role of Skill Knowledge Provider (SKP) :**

- A Skill Knowledge Provider (SKP) shall provide knowledge of practical working Goods & Services Tax to the students enrolled as trainee under them.

**C) How many students to be trained by SKP?**

- The SKP can register a maximum of fifteen students from Institute or College offering Certificate course in GST and affiliated to North Maharashtra University.

**D) Training time and schedule:**

- The students have to undergo at least 56 Hours (1 Month) training with SKP and acquire the necessary working knowledge of GST and get the completion certificate from the SKP.

**E) SKPs Enrollment with North Maharashtra University:**

- All prospective SKPs desirous of offering training to the students enrolled for Certificate Course in GST shall apply to North Maharashtra University with requisite documents. (Refer Annexure 1).
- After the verification of SKP by the designated Committee of University, the SKP would be empaneled as NMU Recognized SKP. List of which will be displayed on official website of the university i.e. [www.nmu.ac.in](http://www.nmu.ac.in)

**Eligibility Criteria for SKPs:**

- For Tax Professionals: SKP must have minimum 3 years of Professional Experience in the fields of Direct & Indirect Taxation and must be registered with association of Tax Practitioners or Professional Institutes such as CA/CS/ICMAI. Or Bar Council in case of Lawyers.
- The SKP must have at least 5 Personal Computers, Licensed copy of Accounting Software, Internet Facility & access to GSTN.
- Each SKP shall be eligible to enroll a maximum of 15 Students at any point of time for providing Practical Training of GST.

**Evaluation Procedure**

**There shall be three papers as stated below:**

**PAPER I - Introduction to Goods & Services Tax (Theory)**

[60 External + 40 Internal =100Marks]

**PAPER II - Procedural Aspects of Goods & Services Tax (Theory)**

[60 External + 40 Internal =100Marks]

**PAPER III- Practical Based on Goods & Services (Practical)**

[60 External + 40 Internal =100 Marks]

**Paper III** Internal Assessment is based on Practical Assignments in Tally & External Assessment is based on Project Viva

**Pattern of Examination:** Annual Examinations

**Scheme of Examinations:**

- A theory papers I & II shall carry 40 Marks for Internal Assessment and 60 Marks for external assessment by the North Maharashtra University. Objective Question Papers containing multiple choice questions (MCQ) shall be set in English both for Internal and External Exams for theory papers I & II.
- For Paper III Practical Examination shall carry 40 Marks for Internal Assessment and 60 Marks for external assessment by the North Maharashtra University.
- A student has to score minimum 50% of marks in each paper and aggregate score of 50% marks in all three papers to pass the certification course in GST.

**Course Objectives:**

The objectives of the course are:

1. To make the students aware of the provisions of the GST Act.
2. To familiarize the students with the procedural requirements of the GST.
3. To familiarize the students with the documents and records required under the GST Act.
4. To enable students to acquire the basic skills to handle the GST portal.
5. To enable students to acquire the working knowledge of the GST.
6. To enable entrepreneurs and budding entrepreneurs to understand GST compliances.

**Course Outcomes:**

**Students** enrolled for the Certificate Course in GST will get following opportunities.

1. Opportunity to work with a Tax Practitioners as their Tax Executives.
2. Opportunity to work in Corporate Sector in the area of Taxation as Finance Executive or Finance Manager.
3. Entrepreneurs & Budding Entrepreneurs would understand the compliances of GST for their businesses or prospective businesses.

# PROGRAMMING

Khandesh College Education Society's

## INSTITUTE OF MANAGEMENT & RESEARCH, JALGAON

Approved by AICTE, New Delhi and Government of Maharashtra,  
Affiliated to North Maharashtra University, Jalgaon  
NAAC Accredited | ISO 9001:2015 Certified

**19th Aug. 2019 to 17th Sep. 2019**

**Program Duration : 30 Days**

**Mrs. Tanuja Fegade, HOD**

Course Coordinator

**Deepali Kirange**

**KCES's Institute of Management and Research, Jalgaon**  
**Certificate Course on C++ Programming**  
**SYLLABUS**

**UNIT - 1. Introduction:** An overview, Object basics, Object state and properties, Behavior, Methods, Messages, Information hiding, Class hierarchy, Relationships, Associations, Aggregations, Identity, Dynamic binding, Persistence, Meta classes, Object oriented system development life cycle.

**UNIT - 2. Object Oriented Analysis:** Identifying Use case, Business object analysis, use case driven object oriented analysis, use case model, Documentation, Classification, Identifying object, relationships, attributes, methods, Super-sub class, A part of relationships Identifying attributes and methods, Object responsibility.

**UNIT - 3. C++ Basics:** Standard Input/ Output Statements, Data Types, Size contents, Variables, variable name, Declaration, Operators and expressions: arithmetic, relational, logical, Bit wise, increment, decrement, assignment, compound assignment, conditional, special, Operator precedence and order of evaluation. Decision Making and Looping Structures, Functions Arrays and String, Pointer

**UNIT - 3. OOP Concepts:** Object Oriented Paradigm in C++ context, Characteristics of Object-Oriented Programming. Difference of Structured Vs. OOPs Object and Classes: Making sense of core object concepts, Operator Overloading, Inheritance, Virtual Functions

**UNIT - 4. Templates:** Function Templates, Class Templates, Templates with types of parameters

**UNIT - 5.Exceptions:** Exceptions: Difference between exception and error, Basics of exception handling in C++, User define exceptions. Streams and Files Streams Classes, Stream Errors. Disk File I/O with Streams, File Pointers, Error Handling in File I/O File I/O with Member Function, Overloading the Extraction and Insertion Operators Memory as a Stream Object, Command line Arguments

**Certificate Course in C++ Programming**  
**w.e.f. 19 Aug 2019- 17 Sep 2019**  
**REPORT**

**Duration and Class Schedule**

- The course is offered for 30 days.
- Duration: 30 days of one hour each from 4pm - 5 pm, that is 6 hours per week.
- Total number of hours is 30 hours.

**Eligibility**

- The participants from MCA I course are eligible for admission in this course.
- Total 30 students are participated in this course.

**Teaching Faculty:**

- Internal faculty Ms. Deepali Kirange, Assistant Professor, KCES's IMR, Jalgaon.

**Co-ordinated by:**

- This course is co-ordinated by Ms. Deepali Kirange and HOD Mrs. Tanuja Fegade.

**Evaluation Procedure**

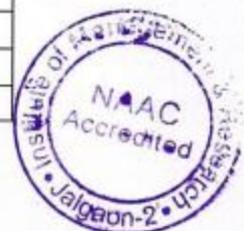

- The course shall have two components of evaluation:
  - a) Continuous evaluation of 20 marks, comprising of Theory and Practical etc.
  - b) Final Examination of 80 marks, comprising of –
    - i. Written Examination: 50 marks.
    - ii. Practical / Oral Examination: 30 marks.
- Final Score for 100 Marks shall be calculated for the continuous evaluation and final examination; and grade shall be as per the grading system below.

**Grading System**

- Based on the student's performance a final letter grade will be awarded at the end of the certificate course. The letter grades and the corresponding grade points are as given in Table

**Table: Grades and Grade Points**

S.No.	Grade	Grade Points	Absolute Marks
1	O (Outstanding)	10	90 and above
2	A+ (Excellent)	9	80 to 89
3	A (Very good)	8	70 to 79
4	B+ (Good)	7	60 to 69

5	B (Above average)	6	50 to 59
6	C (Average)	5	45 to 49
7	P (Pass)	4	40 to 44
8	F (Fail)	0	Less than 40
9	A (Absent)	0	

## COURSE JUSTIFICATION

This certificate course has been designed with the aim of promoting object oriented programming knowledge among the students. The student can understand the knowledge about the theory and practical's of C++. The purpose of the Certificate course in Cpp Programming to impart knowledge of programming to enable them to build a project.

### Course Objectives:

The objectives of the course are:

- 1) To familiarize the Object-Oriented Programming (OOP) concepts, such as abstraction, encapsulation, instances, initializations, polymorphism, overloading, inheritance etc.
- 2) To write programs to solve problems using generic programming constructs such as templates and using standard template library.
- 3) To understand and know the importance of pointers and learn file handling and exception handling in real-world problems

### Course Outcomes:

By the end of the course, students shall be able to:

1. Understand and use the basic programming constructs of C++ and manipulate various C++ data types, such as arrays, strings, and pointers.
2. Manage memory appropriately using proper allocation/ deallocation procedures.
3. Write small-scale C++ programs using the above skills.

# CERTIFICATE COURSE IN PHP

**11<sup>th</sup> Sep. to 15<sup>th</sup> Oct. 2019**

**DURATION : 35 DAYS**

**Program Coordinator  
Pramod Ghogare**

**HOD  
Mrs. Tanuja Fegade**

Behind D.I.C., N.H.06, Jalgaon (MS) Tel : 0257 - 2251281

**KCES's Institute of Management and Research, Jalgaon**  
**Certificate Course on PHP Programming**  
**SYLLABUS**

**UNIT-I**

**Introduction:** Why PHP? Starting PHP Script, Printing Single Line, Variables and Constants, Comments, Installation.

**UNIT- II**

**Language Basics**

Structure and syntax, If statement, Switch statement, For Loop, While Loop, Do – While Loop, Operators, Using PHP \$\_GET, \$\_POST, Working with forms: Processing forms, Form Validations, Linking form together Introduction to cookies and sessions

**UNIT- III**

**Arrays :** Declaring PHP Array, One Dimensional array, Two dimensional array, and Associated Array. Describing arrays, Sorting arrays, for each constructs, Taking Advantages of arrays in Application, PHP string Manipulation.

**UNIT- IV**

**PHP Function :** Understand what is function, Need of Function in PHP, Advantage of Function over statements PHP Function declaration with Example, PHP Function Calling, and PHP Function with arguments Default Arguments in Function, Types of arguments in Function, Function argument with call by value, Function argument with call by reference.

**UNIT- V**

**Using PHP With MYSQL DB:** Introduction to MySql db, Using SQL Commands, interacting with databases, modifying database records using php, Take Advantage of PHP built in functions which are related with db in general and MySql specifically.

**UNIT- VI**

**Advanced in PHP :** Emailing in PHP, Building CMS, Mailing.

## COURSE JUSTIFICATION

This certificate course has been designed with the aim to provide the necessary knowledge to design and develop dynamic, database-driven web applications using PHP. The student can understand the knowledge about the theory and practical's of PHP. The purpose of the Certificate course in PHP Programming to impart knowledge of programming to enable them to build a project.

### Course Objectives:

The objectives of the course are:

1. Understand how server-side programming works on the web and PHP Basic syntax for variable types and calculations.
2. Creating conditional structures and Storing data in arrays
3. Using PHP built-in functions and creating custom functions and Understanding POST and GET in form submission.
4. Create a database in phpMyAdmin and Read and process data in a MySQL database.

### Course Outcomes:

By the end of the course, students shall be able to:

1. List the major elements of the PHP & MySQL work and explain why PHP is good for web development
2. Learn how to take a static website and turn it into a dynamic website run from a database using PHP and MySQL.
3. Analyze the basic structure of a PHP web application and be able to install and maintain the web server, compile, and run a simple web application.
4. Learn different ways of connecting to MySQL through PHP, and how to create tables, enter data, select data, change data, and delete data. Connect to SQL Server and other data sources.

# **CERTIFICATION COURSE FOR DIGITAL MARKETING**

## **SYLLABUS**

**w.e.f. 2 Jan 2020 – 5 Feb 2020**

### **Unit 1 Introduction to Digital Marketing**

- 1.1. The Online Opportunity
- 1.2. First Step in Online Success
- 1.3. Build Web Presence
- 1.4. Plan Online Business Strategy
- 1.5. Get Started With Search

### **Unit 2 Use Search Engine**

- 2.1. Get Discovered With Search
- 2.2. Make Search for Your Work
- 2.3. Noticed with Search ads
- 2.4. Improve Your Search Campaigns

### **Unit 3 Make Your Business Visible**

- 3.1 Help People nearby Find You Online
- 3.2. Get Noticed with Social Media
- 3.3. Deep Dive into Social Media
- 3.4. Discover the Possibilities of Mobile
- 3.5. Make Mobile Work for You

### **Unit 4 Content Marketing**

- 4.1. Starting of Content Marketing
- 4.2. Connect Through Emails
- 4.3. Advertise on Other Website

### **Unit 5 Start Online Business**

- 5.1. Make the Most of Video
- 5.2. Get Start with Analysis
- 5.3. Build Your Online Shop
- 5.4. Expand Internationally

### **Reference Books:**

## COURSE OUTCOMES:

Upon completion of this course, the students will be able to:

- Understand what is digital marketing
- Use search engine properly
- Make his/her business visible
- Get more customers through content marketing

## COURSE OBJECTIVE:

The program aims at developing an overall understanding of digital marketing / online marketing platforms, mainly web analytics, social media tools, marketing through search engines, search engine optimization, mobile marketing, email marketing, Pay per click, digital display marketing and content marketing.

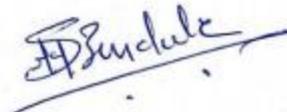

The main objectives of this certificate course in digital marketing is:

- To create Brand Awareness
- To Lead Generation
- Promotion for new products & services
- To Target Customers
- Retaining Old customers
- Increase Sales/Profit
- Expand Market
- To Improve User Experience
- To Improve conversions

## COURSE OUTCOMES:

Students will be able to operate tally software and perform financial entries in TALLY ERP 9.

- Various Concepts pertaining to formation of company and creation of different accounts under TALLY ERP 9 are discussed.
- Students are able to understand the concept of VAT and how to calculate tax in TALLY ERP 9.
- Advanced Excel Formulae are being discussed and practically done by students.

## COURSE OBJECTIVE:

From keeping a track of expenses and deciding about investments to calculating profits, accounting plays a fundamental role in every business. However, quite often, the records either get misplaced or have errors when recorded manually. This can lead to data discrepancy and will not give a clear picture of the financial health of the business. Using software like Tally is an ideal solution for tracking the business efficiently. Used by scores of small and medium enterprises, Tally has become a popular software for record-keeping and accounting purposes. In this certificate course, we will elaborate on the intricacies of the Tally course as well as the job opportunities you can explore. The course is based on current industry standards that help students secure placements in their dream jobs. The course content is going to teach students in detail on how to manage account, Inventory and payroll in Tally.

If you are going to learn Tally you must get well acquainted with MS Excel. Its use is to do advanced calculation, graphing tools, pivot tables, and a macro programming language referred to as Visual Basic for Applications. The course curriculum is one of the most comprehensive and most advanced.

To enable students to learn Accounting entries in Tally ERP 9 Software.

- To make students able to link theory of Accounts and Finance with practical business operations.
- To understand the importance of Advanced Excel in business operation in order to solve complex business calculations.
- To study how this software is enabling business units to carry their work smoothly and efficiently.

    - i. Written Examination: 50 marks.
    - ii. Practical / Oral Examination: 30 marks.
- Final Score for 100 Marks shall be calculated for the continuous evaluation and final examination; and grade shall be as per the grading system below.

**Grading System**

- Based on the student's performance a final letter grade will be awarded at the end of the certificate course. The letter grades and the corresponding grade points are as given in Table

**Table: Grades and Grade Points**

S.No.	Grade	Grade Points	Absolute Marks
1	O (Outstanding)	10	90 and above
2	A+ (Excellent)	9	80 to 89

3	A (Very good)	8	70 to 79
4	B+ (Good)	7	60 to 69
5	B (Above average)	6	50 to 59
6	C (Average)	5	45 to 49
7	P (Pass)	4	40 to 44
8	F (Fail)	0	Less than 40
9	A (Absent)	0	

## COURSE JUSTIFICATION

Ethical hacking is a subject that has become very important in present-day context, and can help individuals and organizations to adopt safe practices and usage of their IT infrastructure. Starting from the basic topics like what is an ethical hacking, type of hacker, spamming, phishing, the course will cover various attacks and vulnerabilities and ways to secure them. The participants are encouraged to try and replicate the demonstration experiments that will be discussed as part of the course.

### Course Objectives:

The objectives of the course are:

1. Understand concept of hacking, types of hackers and steps for how hacking is performed.
2. Using Email service protocols understand how to secure Email account.
3. Prevent web servers from various different attacks.
4. Understand how to prevent wireless networks and mobile from forging and spoofing.

### Course Outcomes:

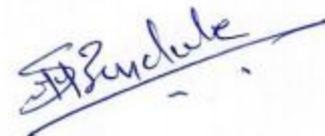

By the end of the course, students shall be able to:

1. Recognize the characteristics of the enumeration phase of an attack and effective countermeasures
2. Determine the techniques and tools used in system hacking
3. Determine how to counter wireless network hacking techniques
4. Students will identify what type of attack and take precautions to resolve them.
5. Learn the various different protocols used to protect email spamming and spoofing attacks.

## **Certificate Course on Web Programming**

### **SYLLABUS**

#### **Unit-I**

**HTML:** Introduction to HTML, Doctype, Namespace, Meta Tag, Script Tag, Images, Tables, Div, Paragraph, Span, Pre Tags, Anchor Links and Named Anchors, Line Breaks and Horizontal Lines. Lists, Object Tag, Iframe Tag, Form Tag, Form Tag, POST and GET Method, Fieldset and Legend, Text input, Text area, Checkbox and Radio Button, Dropdown, List, File Upload and Hidden Fields, Submit, Image, Normal, Reset Button, Creating a Live Website with Form

#### **Unit-II**

**CSS:** Introduction to CSS 2.1, CSS Selectors: Universal Selector, ID Selector, Tag Selector, Class Selector, Sub Selector, CSS Properties: Type Properties, Background Properties, Block Properties, Box Properties, List Properties, Border Properties, Positioning Properties, Conversion of Table to CSS Layout, CSS Menu Design (Horizontal, Vertical), External and Inline CSS, Introduction to CSS 3, New CSS 3 Selectors, New CSS3 Properties, CSS Gradients, Opacity Property, Transition effect, Transform effect, Animation effects, CSS Media Queries, Creating a Live Website with CSS

#### **Unit III**

**HTML 5:** Introduction to HTML5, XHTML vs HTML5, Features of HTML5, HTML5 DocType, New Structure Tags, Section, Nav, Article, Aside, Header, Footer, New Media Tags, Canvas and Svg Tag, Introduction to HTML5 Forms, voice search

#### **Unit IV**

**JavaScript:** Introduction to JavaScript, Variable, statements, Operators, Comments, constructs, Functions, expressions, JavaScript console, Scope, Events, Strings, String Methods, Numbers, Number Methods, Dates, Date Formats, Date Methods, Arrays, Loops Object Prototypes, Object Oriented Programming, JavaScript Validations, Security in JavaScript

#### **Unit V**

**Bootstrap :**Introduction to Responsive Web Design, Overview of Bootstrap, Need to use Bootstrap, Bootstrap Grid System, Grid Classes, Basic Structure of a Bootstrap Grid, Typography, Tables, Images, Jumbotron, Wells, Alerts, Buttons, Button Groups, Badges/Labels, Progress Bars, Pagination, List Groups, Panels, Dropdowns, Collapse, Tabs/Pills, Navbar, Forms, Inputs, Bootstrap Grids, Grid System, Stacked/Horizontal, Bootstrap Themes, Templates

#### **Reference Books**

**Certificate Course in Web Programming**  
**w.e.f. 24 Feb 2021 to 10 Mar 2021**  
**REPORT**

**Duration and Class Schedule**

- The course is offered for 15 days.
- Duration: 15 days of two hours each from 1pm - 3pm.
- The online classes will be conducted in Zoom platform
- Total number of hours is 30 hours.

**Eligibility**

- The participants from MCA I course are eligible for admission in this course.
- Total 55 students are participated in this course.

**Teaching Faculty:**

- Internal faculty Mr. Harshal Patil, Assistant Professor, KCES's IMR, Jalgaon.

**Co-ordinated by:**

- This course is coordinated by Mr. Harshal Patil and HOD Mrs. Tanuja Fegade.

**Evaluation Procedure**

- The course shall have two components of evaluation:
  - a) Continuous evaluation of 20 marks, comprising of Theory and Practical etc.
  - b) Final Examination of 80 marks, comprising of –
    - i. Written Examination: 50 marks.
    - ii. Practical / Oral Examination: 30 marks.
- Final Score for 100 Marks shall be calculated for the continuous evaluation and final examination; and grade shall be as per the grading system below.

**Grading System**

- Based on the student's performance a final letter grade will be awarded at the end of the certificate course. The letter grades and the corresponding grade points are as given in Table

**Table: Grades and Grade Points**

S.No.	Grade	Grade Points	Absolute Marks
1	O (Outstanding)	10	90 and above
2	A+ (Excellent)	9	80 to 89
3	A (Very good)	8	70 to 79

4	B+ (Good)	7	60 to 69
5	B (Above average)	6	50 to 59
6	C (Average)	5	45 to 49
7	P (Pass)	4	40 to 44
8	F (Fail)	0	Less than 40
9	A (Absent)	0	

### COURSE JUSTIFICATION

This certificate course has been designed with the aim of promoting web programming knowledge among the students. The student can understand the knowledge about the theory and practical's of web programming. The purpose of the Certificate course in Web Programming to impart knowledge of programming to enable them to build a website based project.

#### Course Objectives:

- 1) To understand web designing using HTML/CSS.
- 2) To use JavaScript for scripting.
- 3) To understand static/dynamic API.

#### Course Outcomes:

After completion of this course students shall be able to-

- 1) Design the web applications/sites
- 2) Apply dynamic paging.
- 3) Use JavaScript/Node.JS to make design and scripting.

## Certificate Course in C++ & CPP Programming

24<sup>th</sup> Feb. 2021 to 10<sup>th</sup> Mar. 2021

# C++

Duration of course  
**15 Days**

Program Coordinator  
**Deepali Kirange**

HOD  
**Mrs. Tanuja Fegade**  
(Computer)

**KCES's Institute of Management and Research, Jalgaon**  
**Certificate Course on C and C++ Programming**  
**SYLLABUS**

**UNIT-I**

**Overview of C:** History of C, Special features and application areas, structured programming approach & feature.

**Input-Output, Variables, Operators and Data types :** Standard Input output, Pre-processor directives in C, Operators and expressions, variable name, data type and size contents, declaration, arithmetic operators, relational operators, logical operators, Bit wise operators, increment, decrement operators, assignment operators, compound assignment operator, conditional expression, special operators, precedence and order of evaluation.

**UNIT-II**

**Decision making and Looping structures: Decision Making:** if- else- if, switch, break, continue, **Looping Structures:** while, for, do-while, nesting of loops, go to.

**Functions:** Basics of functions function prototype, definition of function, function argument (formal arguments, local arguments), function with default argument, arguments and function with return value, Recursive functions.

**UNIT-III**

**Array, Pointer and String: Array:** Declaration and defining of an array, Types of array (Single and multidimensional). **Pointer:** Address of variable, Declaration of Pointer, storing address into pointer variable, pointers arithmetic, array of pointers, initialization of pointer array, pointer to pointers, pointer to function.

**Structure and Union:** Structure Basics, Nested structure, Pointer to structure, Self-referential structure, Union, Difference between structure and union.

**UNIT - IV**

**Introduction:** An overview, Object basics, Object state and properties, Behavior, Methods, Messages, Information hiding, Class hierarchy, Relationships, Associations, Aggregations, Identity, Dynamic binding, Persistence, Meta classes, Object oriented system development life cycle.

**Object Oriented Analysis:** Identifying Use case, Business object analysis, use case driven object oriented analysis, use case model, Documentation, Classification, Identifying object, relationships, attributes, methods, Super-sub class

**UNIT – V**

**C++ Basics:** Standard Input/ Output Statements, Data Types, Size contents, Variables, variable name, Declaration, Operators and expressions: arithmetic, relational, logical, Bit wise, increment, decrement, assignment, compound assignment, conditional, special, Operator precedence and order of evaluation.

**OOP Concepts:** Object Oriented Paradigm in C++ context, Characteristics of Object-Oriented Programming. Difference of Structured Vs. OOPs Object and Classes: Making sense of core object concepts, Operator Overloading, Inheritance, Virtual Functions

**UNIT - VI**

**Templates:** Function Templates, Class Templates, Templates with types of parameters

**Exceptions:** Exceptions: Difference between exception and error, Basics of exception handling in C++, User define exceptions. Streams and Files Streams Classes, Stream Errors. Disk File I/O with Streams,

File Pointers, Error Handling in File I/O File I/O with Member Function, Overloading the Extraction and Insertion Operators Memory as a Stream Object, Command line Arguments

8	F (Fail)	0	Less than 40
9	A (Absent)	0	

## COURSE JUSTIFICATION

This certificate course has been designed with the aim of promoting object oriented programming knowledge among the students. The student can understand the knowledge about the theory and practical's of C and C++. The purpose of the Certificate course in C and Cpp Programming to impart knowledge of programming to enable them to build a project.

### Course Objectives:

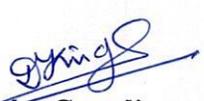

The objectives of the course are:

1. Students will be able to develop logics which will help them to create programs, applications in C
2. To provide exposure to problem-solving through C programming.
3. To familiarize the Object-Oriented Programming (OOP) concepts, such as abstraction, encapsulation, instances, initializations, polymorphism, overloading, inheritance etc.
4. To write programs to solve problems using generic programming constructs such as templates and using standard template library.
5. To understand and know the importance of pointers and learn file handling and exception handling in real-world problems

### Course Outcomes:

By the end of the course, students shall be able to:

1. Understand and use the basic programming constructs of C++ and manipulate various C++ datatypes, such as arrays, strings, and pointers.
2. Understand the fundamentals of C programming.
3. Recollect various programming constructs and to develop C programs.
4. Manage memory appropriately using proper allocation/ deallocation procedures.
5. Write small-scale C++ programs using the above skills.

**--Syllabus --**

**PHP And Web development**  
**Certification Course 2021**

# HTML

## **Internet & Web Designing Concepts**

Internet: Introduction to Internet, Internet Services, WWW, Hypertext Transfer Protocol (HTTP), URL, Web server, Proxy servers

Web Site Concepts: Web page, static and Dynamic web page, Web site development Phases,

**HTML Fundamentals** Hypertext Basics, Basic Components of HTML, HTML Tags, Head, and Title Tags, Body Tags,  
Creating HTML Code using different editor (notepad, EditPlus, TextPad etc.)  
Viewing in a Browser.

**Formatting Text** Importance of Formatting, Paragraphs and Alignment, Bold Text, Italic Text, Underline,  
HTML Headings, Ordered List Tags and Attributes, Unordered List Tags and Attributes  
Nested Lists, Font Tags, Font Attributes, Marquee Tag and Attributes, Heading Tag.

## **Images**

Different Image Formats, Image Tags and Attributes,  
Background Images and Color  
Inserting Audio and Video Files, images Link

## **Links & Tables**

How Hyperlinks Work, Anchor Tag and HREF, Attributes, Absolute vs. Relative Links, Border E-Mail Links, and Table Tags & Table Attributes, Row Attributes, Cell Attributes, Merging Rows & Columns.

## **Frames and Forms**

Frames, Pros and Cons of Using Frames, Creating Framesets, Frameset Attributes & Frameset Examples,  
Frame Tag and Attributes, No frames Tag,  
Anatomy of A Form, Form Tag And Attributes, Text Boxes, Check Boxes, Radio Buttons, Text Areas, List  
Box Submit and Reset Buttons

## Web Scripting with PHP & MySQL

### **INTRODUCTION:**

Why PHP? Starting PHP Script, Printing Single Line, Variables and Constants, Comments, Installation.

### **LANGUAGE BASICS**

Structure and syntax, If statement, Switch statement, For Loop, While Loop, Do - While Loop, Operators, and Using PHP \$\_GET, \$\_POST, working with forms: Processing forms, Form Validations, linking form together Introduction to cookies and sessions

### **ARRAYS:**

Declaring PHP Array, One Dimensional array, Two dimensional array, and Associated Array. Describing arrays, sorting arrays, for each constructs, taking Advantages of arrays in Application, PHP string Manipulation.

### **PHP FUNCTION:**

Understand what function, Need of Function in PHP, Advantage is of Function over statements PHP Function declaration with Example, PHP Function Calling, And PHP Function with arguments Default Arguments in Function, Types of arguments in Function, Function argument with call by value, Function argument with call by Reference.

### **USING PHP WITH MYSQL DB:**

Introduction to MySql db, Using SQL Commands, Interacting with databases, modifying database records using php, Take Advantage of PHP built in functions which are related with db in general and MySql specifically.

### **ADVANCED IN PHP:**

Emailing in PHP, Building CMS, Mailing.

# Web Design & JavaScript

## **Module 1**

The Nature of JavaScript The Evolution of Scripting Languages, JavaScript - Definition, Programming for Non-Programmers? Comparison between Java, JavaScript & VB Script

## **Module 2**

Jump Starting JavaScript Introduction to Objects, Methods, and Events, Events and Program Flow, Jumping Right In, Running Scripts.

## **Module 3**

Script Writing Basics Enhancing HTML Documents with JavaScript, The Quintessential Building Blocks, Script Mechanics

## **Module 4**

### **Using Names, Objects and Methods**

Names and References in JavaScript, Built-in Objects, Home-Built Objects, The Hierarchy of Names, Using Methods, Operators and Variables, Keywords, Functions, Object interaction.

## **Module 5**

### **Adding Interactivity to a Web Page**

Controlling Script Flow, Storing Tasks within Functions, Using Conditional Statements for Decision Making, if Statements, if-else Conditional Statements, Using the Date Object, for Conditional Statements, while Conditional Statements, break and continue Statements, with Statements, Creating Functions in JavaScript, Declaring a Function, Designing a Simple Function.

## Module 6

### Creating Dynamic Web Page

Changing Pages Based on Time and Date, Displaying the Quote of the Day, Using Arrays, Constructing the Quotes Script, Considerations When Accessing External Files, Changing the Background Color through a Random Number, Turning the Color Generator into a Function, Using the Image and Area Objects, Creating an Image Object, Creating an Area Object, Selecting a Guide.

# KCES's Institute of Management and Research, Jalgaon

## Certificate Course on Python Programming

### SYLLABUS

**Unit 1: Programming Basics and Strings:** The First Steps, Installing Python 3.1 on Non-Windows Systems, Using the Python Shell, Beginning to Use Python — Strings, What is a String?, Why the Quotes?, Why Three Types of Quotes?, Using the print () Function, Understanding Different Quotes, Putting Two Strings Together, Joining Strings with the Print() Function, Putting Strings Together in Different Ways

**Unit 2: Numbers and Operators and Variables:** Different Kinds of Numbers, Numbers in Python, Program Files, Using the Different Types, Basic Math, Some Surprises, Using Numbers, Order of Evaluation, Number Formats, Referring to Data — Using Names for Data, Changing Data Through Names, Copying Data, Using More Built-in Types, Tuples — Unchanging ,Sequences of Data, Lists — Changeable Sequences of Data, Dictionaries — Groupings of Data Indexed by Name, Treating a String Like a List, Special Types, Other Common Sequence Properties, Referencing the Last Elements, Ranges of Sequences, Growing Lists by Appending Sequences, Using Lists to Temporarily Store Data

**Unit 3: Making Decisions and Function:** Comparing Values, Doing the Opposite — Not Equal More Than or Equal, Less Than or Equal, Reversing True and False, Looking for the Results of More Than One Comparison, How to Get Decisions Made, Repetition, Stopping the Repetition, Handling Errors, Trying Things Out ,Putting Your Program into Its Own File, Functions: Grouping Code under a Name, Choosing a Name, Describing a Function in the Function, The Same Name in Two Different, Places, Making Notes to Yourself, Asking a Function to Use a Value You Provide, Checking Your Parameters, Setting a Default Value for a Parameter—Just in Case, Calling Functions from within Other Functions, Functions Inside of Functions,

**Unit 4: Classes and Objects:** Thinking About Programming, What is an Object?, Objects You Already Know, Looking Ahead: How You Want to Use Objects, Defining a Class, How Code Can Be Made into an Object, Objects and Their Scope

**Unit 5: Files and Directories :** File Objects, Writing Text Files, Appending Text to a File, Reading Text Files, File Exceptions, Paths and Directories, Exceptions in os, Paths, Directory Contents, Obtaining Information about Files, Renaming, Moving, Copying, and Removing Files, Example: Rotating Files, Creating and Removing Directories, Globing

- Comprehensively overview and systematic evaluate the mainstream markets of various financial instruments such as call money, bond, stock, derivatives and exchange rate.

## **COURSE JUSTIFICATION AND OBJECTIVE**

Today with the Covid- 19 and lockdown situations more and more people are looking hopefully to social media platforms and online courses for enhancing their skills or learning a new skill set. This quest could either be related to your hobby or a need for a job or sheer curiosity about the subject. With the vulnerable state of Financial Markets, a Certificate online course in Stock Market could be a good beginning for entering the stock market. The need for such a course arises from the fact that a simple University degree in economics and financial market theories is not sufficient. The ultimate goal of this course is using such industries effectively and towards a better society.

This course will provide an understanding of the functions, and operations of the financial markets and institutions operating in India. It explains the role of financial system on economic development. Various conceptual issues related to risk and return, the role of regulatory bodies, mechanism of commercial banking, operations of insurance companies and mutual funds are discussed elaborately. It also describes the importance of small savings, provident funds, pension funds and credit rating agencies.

- An overview of the ideas, methods, and institutions that permit human society to manage risks and foster enterprise.
- Emphasis on financially-savvy leadership skills.
- Description of practices today and analysis of prospects for the future.
- Introduction to risk management and behavioral finance principles to understand the real-world functioning of securities, insurance, and banking industries.

9	A (Absent)	0	

**COURSE OUTCOMES:**

Upon completion of this course, the students will be able to:

- Master the relation between HRMS, HRIS, Reporting and Data Visualization to attain business excellence.
- Spearhead the art of leveraging analytics in the decision-making process of the HR department.
- Maximizing the performance using the forecasting and predictive modelling in HR to excel in the business.

**COURSE OBJECTIVE:**

The human resources function in today's organizations has moved ahead from a transaction oriented cost center to a value-added business partnership approach. Analytics has played a critical role in this journey of HR transformation. This program will specifically focus on the applied methods and techniques with an output orientation for improving the human resource functions in large scale organizations. The frameworks, models, and hands-on analytical approaches will equip the participants with developing the SMART (specific, measurable, attainable, reliable, and time bound) targets and identifying business contributions of the HR function in their respective organizations. Analytics is always an important topic and trend in every part of business and HR is also not far behind.

- To be able to take strategic decision using predictive analytics in HR
- To improve organizational performance through high quality talent related decisions
- To expose HR fraternity to critical HR issues associated with business
- Discuss various real world scenarios where analytics has been utilized to solve complex HR problems
- To discuss the important key issues in building effective HR analytics solutions

### COURSE OUTCOMES:

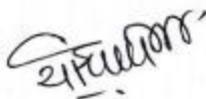

- After Successful completion of this course, the students are able to:
- Understand the field of Advertising
- Comprehend opportunities and challenges in Advertising sector
- Prepare a primary advertising model
- Understand applying of related skills
- Examine the scope for making advertising a future career

### COURSE OBJECTIVE

There is never a dull moment in the advertising space. You meet new and interesting people, get to work on some of the most existing and happening projects, and even learn new skills without working too hard for it. Consumer culture is rapidly changing with evolving technology. So, the industry is always in need of marketing professionals who know how to adapt to the changes and manage advertising campaigns that connect to the customers. It is here where advertising management courses can prepare you for the competitive marketing industry.

Advertising is a field which is a mix of art and science, both of which require special tools and techniques. So, even if you have a naturally creative mind, you still need to know how you can maximize its potential and impact through different advertising tricks. And, only an advertising management course can teach you that. This course will provide a foundation for advanced advertising courses.

- Understand the concept of Marketing Communication and Advertising
- Recognize social and ethical implications of advertising
- Identify the methods used for market segmentation and audience targeting
- Discuss influences that affect consumer needs and wants
- Explain the methods used in marketing and advertising research
- Explain the role of marketing, advertising planning and Media Planning
